

Global Music Licensing United Kingdom Quick Start Guide

The Global Music Licensing Grid initiative was a collective effort among the participants of Music Biz's Business Development Workgroup to clarify the current licensing structure for music rights in various territories including Argentina, Australia, Brazil, Canada, France, Germany, Italy, Japan, Mexico, Spain, United Kingdom and United States. The licensing grids were created to assist service providers and app developers in their approach to music licensing. Based on the feedback from the Workgroup, we identified the most frequently requested types of music uses: download, non-interactive, on-demand, sync, lyrics and karaoke.
